

Finished Fuel Additives Technology

TIMELY AND FLEXIBLE SOLUTIONS TO SUPPORT SPECIFICATIONS AND REQUIREMENTS

Athlon, a Halliburton Service, offers a broad selection of additives along with experienced people, equipment, and support services to help ensure timely and successful results. We are right for you if you are:

- » Frustrated with how long it takes to resolve your problems
- » Need more flexible solutions
- » Having trouble meeting specifications and handling/transportation requirements
- » Need help with HSE regulations

SUSTAINED AND SUPPORTED PROGRAMS

Our programs offer refiners, terminal operators, and cargo treatment teams sustained chemical and equipment solutions that meet transporting requirements, and also comply with HSE regulations. The programs are supported by project engineers and field technicians to help ensure you get results when you need them.
