

# Petrochemical Water and Process Treatment Solutions

## DRIVE PERFORMANCE WITH ATHLON'S PRODUCTS AND PROGRAMS

Athlon, a Halliburton Service, is a full water and process treatment solutions provider. Our products and applications are innovative and proven to meet complex, petrochemical challenges such as corrosion, fouling, coke formation, and much more. From implementation to optimization, our products are supported by a service-focused program to help ensure we implement solutions that are cost-effective and fit-for-purpose.

- » Boiling water system
- » Cooling towers
- » Dilution steam systems
- » Waste water systems
- » Amine and caustic units
- » Cracking furnaces
- » Fractionators
- » Light end units
- » Process gas compressors

### KEY BENEFITS

- » Extend run lengths
- » Increase capacity yield
- » Reduce fuel consumption
- » Improve heat transfer
- » Gain operational efficiencies
- » Meet HSE standards

### OUR PROGRAMS

We begin by understanding your needs and challenges. We listen to you to develop a customized program that integrates process design, equipment, operating conditions, and current performance. Our approach is to partner with you. Together we identify solutions that help ensure your operations are efficient, consistent, profitable, and comply with HSE standards. Regular review of Key Performance Indicators (KPIs) with your team helps ensure we meet your expectations.
